2016 American Community Survey 1-Year Estimates

Tell us what you think. [Provide feedback to help make American Community Survey data more useful for you.](#)

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

Versions of this table are available for the following years:

of		
57		
Total:	718,419	+/-1,649
Male:	371,645	+/-2,505
Under 6 years:	31,511	+/-1,196
With Medicare coverage	225	+/-204
No Medicare coverage	31,286	+/-1,222
6 to 17 years:	67,659	+/-1,735
With Medicare coverage	231	+/-188
No Medicare coverage	67,428	+/-1,740
18 to 24 years:	37,131	+/-1,598
With Medicare coverage	703	+/-498
No Medicare coverage	36,428	+/-1,665
25 to 34 years:	56,692	+/-1,730
With Medicare coverage	435	+/-347
No Medicare coverage	56,257	+/-1,776
35 to 44 years:	43,976	+/-1,857
With Medicare coverage	325	+/-165
No Medicare coverage	43,651	+/-1,892
45 to 54 years:	48,061	+/-1,637
With Medicare coverage	1,442	+/-834
No Medicare coverage	46,619	+/-1,624
55 to 64 years:	49,440	+/-1,758
With Medicare coverage	2,680	+/-776
No Medicare coverage	46,760	+/-1,908
65 to 74 years:	27,030	+/-680
With Medicare coverage	24,678	+/-1,031
No Medicare coverage	2,352	+/-852
75 years and over:	10,145	+/-499
With Medicare coverage	9,960	+/-511
No Medicare coverage	185	+/-173
Female:	346,774	+/-2,479
Under 6 years:	31,184	+/-1,530
With Medicare coverage	87	+/-98
No Medicare coverage	31,097	+/-1,517
6 to 17 years:	56,485	+/-1,526
With Medicare coverage	165	+/-117
No Medicare coverage	56,320	+/-1,530
18 to 24 years:	31,003	+/-1,263
With Medicare coverage	323	+/-347
No Medicare coverage	30,680	+/-1,339
25 to 34 years:	56,830	+/-2,076
With Medicare coverage	610	+/-311
No Medicare coverage	56,220	+/-2,115
35 to 44 years:	45,163	+/-1,504
With Medicare coverage	510	+/-308
No Medicare coverage	44,653	+/-1,468
45 to 54 years:	43,186	+/-1,302
With Medicare coverage	1,105	+/-503
No Medicare coverage	42,081	+/-1,224
55 to 64 years:	45,702	+/-860
With Medicare coverage	2,266	+/-624
No Medicare coverage	43,436	+/-1,084
65 to 74 years:	24,784	+/-773
With Medicare coverage	23,300	+/-865
No Medicare coverage	1,484	+/-462

	Alaska	
	Estimate	Margin of Error
75 years and over:	12,437	+/-701
With Medicare coverage	12,317	+/-692
No Medicare coverage	120	+/-88

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-.' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+.' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see https://www.census.gov/library/working-papers/2010/demo/coverage_edits_final.html for more details. The 2008 data table in American FactFinder does not incorporate these edits. Therefore, the estimates that appear in these tables are not comparable to the estimates in the 2009 and later tables. Select geographies of 2008 data comparable to the 2009 and later tables are available at <https://www.census.gov/data/tables/time-series/acs/1-year-re-run-health-insurance.html>. The health insurance coverage category names were modified in 2010. See https://www.census.gov/topics/health/health-insurance/about/glossary.html#par_textimage_18 for a list of the insurance type definitions.

While the 2016 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
