Footnote(s)

- 1 For information on collection, classification and data quality for 'Location of study', refer to the Education Reference Guide, Census of Population, 2016, Catalogue no. 98-500-X2016013.
- 2 'Immigrant status' refers to whether the person is a non-immigrant, an immigrant or a non-permanent resident.

'Period of immigration' refers to the period in which the immigrant first obtained landed immigrant or permanent resident status.

Non-permanent residents and immigrants who landed between 2015 and 2016 are included in the 'Total - Immigrant status and period of immigration'. The categories for 'Non-permanent residents' and period of immigration '2015 to 2016' are not presented elsewhere in this table with income as they may not have a complete year of applicable income. The income data for the 2016 Census of Population are for the year 2015.

'Non-permanent residents' includes persons from another country who have a work or study permit, or who are refugee claimants, and their family members sharing the same permit and living in Canada with them.

For more information on immigration variables, including information on their classifications, the questions from which they are derived, data quality and their comparability with other sources of data, please refer to the Place of Birth, Generation Status, Citizenship and Immigration Reference Guide, Census of Population, 2016.
- 3 Non-permanent residents are included in 'Total - Age at immigration.' The category for 'Non-permanent residents' is not presented elsewhere in this table with income as they may not have a complete year of applicable income.

'Non-permanent residents' includes persons from another country who have a work or study permit, or who are refugee claimants, and their family members sharing the same permit and living in Canada with them.

For more information on immigration variables, including information on their classifications, the questions from which they are derived, data quality and their comparability with other sources of data, please refer to the Place of Birth, Generation Status, Citizenship and Immigration Reference Guide, Census of Population, 2016.
- 4 Class of worker refers to whether a person aged 15 years and over is an employee or is self-employed.
- 5 Employment income - All income received as wages, salaries and commissions from paid employment and net self-employment income from farm or non-farm unincorporated business and/or professional practice during the reference period.

Wages, salaries and commissions - Gross wages and salaries before deductions for such items as income taxes, pension plan contributions and employment insurance premiums during the reference period. While other employee remuneration such as security options benefits, board and lodging and other taxable allowances and benefits are included in this source, employers' contributions to pension plans and employment insurance plans are excluded. Other receipts included in this source are military pay and allowances, tips, commissions and cash bonuses associated with paid employment, benefits from wage-loss replacement plans or income-maintenance insurance plans, supplementary unemployment benefits from an employer or union, research grants, royalties from a work or invention with no associated expenses and all types of casual earnings during the reference period.

For the 2016 Census, the reference period is the calendar year 2015 for all income variables.

The median income of a specified group is the amount that divides the income distribution of that group into two halves, i.e., the incomes of half of the units in that group are below the median, while those of the other half are above the median. Median incomes of individuals are calculated for those with income (positive or negative).

Average income of a specified group is calculated by dividing the aggregate income of that group by the number of units in that group. Average incomes of individuals are calculated for those with income (positive or negative).
