

POVERTY STATUS IN THE PAST 12 MONTHS OF FAMILIES BY FAMILY TYPE BY PRESENCE OF RELATED CHILDREN UNDER 18 YEARS BY AGE OF RELATED CHILDREN (AMERICAN INDIAN AND ALASKA NATIVE ALONE)

**Universe: Families with a householder who is American Indian and Alaska Native alone
2017 American Community Survey 1-Year Estimates**

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Technical Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

2006

1 - 41 of 41	Alaska	
	Estimate	Margin of Error
Total:	21,143	+/-1,514
Income in the past 12 months below poverty level:	4,712	+/-670
Married-couple family:	1,337	+/-393
With related children of the householder under 18 years:	1,141	+/-356
Under 5 years only	99	+/-87
Under 5 years and 5 to 17 years	417	+/-107
5 to 17 years only	625	+/-339
No related children of the householder under 18 years	196	+/-117
Other family:	3,375	+/-614
Male householder, no wife present:	1,023	+/-238
With related children of the householder under 18 years:	876	+/-240
Under 5 years only	193	+/-114
Under 5 years and 5 to 17 years	266	+/-126
5 to 17 years only	417	+/-187
No related children of the householder under 18 years	147	+/-65
Female householder, no husband present:	2,352	+/-581
With related children of the householder under 18 years:	1,946	+/-550
Under 5 years only	276	+/-135
Under 5 years and 5 to 17 years	866	+/-488
5 to 17 years only	804	+/-190
No related children of the householder under 18 years	406	+/-227
Income in the past 12 months at or above poverty level:	16,431	+/-1,310
Married-couple family:	8,161	+/-1,058
With related children of the householder under 18 years:	4,666	+/-856
Under 5 years only	409	+/-225
Under 5 years and 5 to 17 years	1,560	+/-530
5 to 17 years only	2,697	+/-557
No related children of the householder under 18 years	3,495	+/-628
Other family:	8,270	+/-963
Male householder, no wife present:	2,635	+/-517
With related children of the householder under 18 years:	1,485	+/-427
Under 5 years only	574	+/-375
Under 5 years and 5 to 17 years	363	+/-107
5 to 17 years only	548	+/-157
No related children of the householder under 18 years	1,150	+/-318
Female householder, no husband present:	5,635	+/-875
With related children of the householder under 18 years:	3,515	+/-636
Under 5 years only	529	+/-268
Under 5 years and 5 to 17 years	855	+/-360
5 to 17 years only	2,131	+/-533
No related children of the householder under 18 years	2,120	+/-589

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

While the 2017 American Community Survey (ACS) data generally reflect the July 2015 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineations due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
