

EMPLOYER-BASED HEALTH INSURANCE BY SEX BY AGE
Universe: Civilian noninstitutionalized population
2017 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Technical Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

Versions of this table are available for the following years:

- 2017**
- 2016**
- 2015**
- 2014**
- 2013**
- 2012**
- 2011**
- 2010**

	Alaska	
	Estimate	Margin of Error
Total:	716,178	+/-2,175
Male:	366,114	+/-3,066
Under 6 years:	31,547	+/-1,881
With employer-based health insurance	12,312	+/-1,343
No employer-based health insurance	19,235	+/-2,025
6 to 18 years:	68,413	+/-2,358
With employer-based health insurance	31,480	+/-2,417
No employer-based health insurance	36,933	+/-2,854
19 to 25 years:	33,050	+/-2,664
With employer-based health insurance	15,892	+/-2,221
No employer-based health insurance	17,158	+/-2,068
26 to 34 years:	51,570	+/-1,973
With employer-based health insurance	23,141	+/-2,069
No employer-based health insurance	28,429	+/-2,542
35 to 44 years:	46,738	+/-1,845
With employer-based health insurance	28,188	+/-2,276
No employer-based health insurance	18,550	+/-1,787
45 to 54 years:	45,308	+/-1,380
With employer-based health insurance	27,012	+/-1,871
No employer-based health insurance	18,296	+/-1,912
55 to 64 years:	48,526	+/-910
With employer-based health insurance	30,637	+/-1,348
No employer-based health insurance	17,889	+/-1,318
65 to 74 years:	29,319	+/-854
With employer-based health insurance	14,691	+/-1,168
No employer-based health insurance	14,628	+/-1,343
75 years and over:	11,643	+/-556
With employer-based health insurance	5,034	+/-733
No employer-based health insurance	6,609	+/-740
Female:	350,064	+/-2,412
Under 6 years:	32,900	+/-1,868
With employer-based health insurance	11,881	+/-1,576
No employer-based health insurance	21,019	+/-2,161
6 to 18 years:	61,523	+/-1,903
With employer-based health insurance	28,868	+/-2,516
No employer-based health insurance	32,655	+/-2,371
19 to 25 years:	32,603	+/-1,550
With employer-based health insurance	14,591	+/-1,538
No employer-based health insurance	18,012	+/-1,411
26 to 34 years:	48,438	+/-2,003
With employer-based health insurance	23,784	+/-2,014
No employer-based health insurance	24,654	+/-1,943
35 to 44 years:	46,398	+/-2,018
With employer-based health insurance	27,426	+/-2,134
No employer-based health insurance	18,972	+/-2,170
45 to 54 years:	42,337	+/-1,726
With employer-based health insurance	26,688	+/-1,775
No employer-based health insurance	15,649	+/-1,745
55 to 64 years:	45,315	+/-791
With employer-based health insurance	28,443	+/-1,680
No employer-based health insurance	16,872	+/-1,695
65 to 74 years:	27,107	+/-802
With employer-based health insurance	13,775	+/-1,427
No employer-based health insurance	13,332	+/-1,280
75 years and over:	13,443	+/-590
With employer-based health insurance	4,390	+/-812
No employer-based health insurance	9,053	+/-837

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-.' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '.-' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see https://www.census.gov/library/working-papers/2010/demo/coverage_edits_final.html for more details. The 2008 data table in American FactFinder does not incorporate these edits. Therefore, the estimates that appear in these tables are not comparable to the estimates in the 2009 and later tables. Select geographies of 2008 data comparable to the 2009 and later tables are available at <https://www.census.gov/data/tables/time-series/acs/1-year-re-run-health-insurance.html>. The health insurance coverage category names were modified in 2010. See https://www.census.gov/topics/health/health-insurance/about/glossary.html#par_textimage_18 for a list of the insurance type definitions.

Beginning in 2017, selected variable categories were updated, including age-categories, income-to-poverty ratio (IPR) categories, and the age universe for certain employment and education variables. See user note entitled "[Health Insurance Table Updates](#)" for further details.

While the 2017 American Community Survey (ACS) data generally reflect the July 2015 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineations due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
